Mapping the User Journey: Need to capture immunity search intent during digital "Anxiety Windows"

Context Search

Searching "Immunity for school entry" or remedies.

Social Proof

Consuming KOL "Protection" content and peer reviews.

Verification

Validating 70mg Lactoferrin vs. cheaper rivals.

Conversion

Purchasing via flagship flagship ensuring quality.

*Strategy: Use **online platform's search-to-social loop** to dominate immunity conversations*

Competitor Study: Learning from Aptamil's "Self-Protection" emotive strategy

CASE STUDY: APTAMIL

Key Hook: "Self-Protection" (自护力)

Aptamil reframes science into emotional security. They use captions like **"Unlock your child's innate defense"** rather than just ingredient stats.

Relevant Social Promotion Strategy

1. Mass Awareness Anchors

Sponsorship of high-traffic tv shows to normalize the "Immunity" conversation for mass audiences.

2. High-Tier KOL Authority & Storytelling

Invest in high-tier KOLs as key narrative anchors, delivering immunity messaging through natural, vlog-style storytelling that resonates with audiences.

KOL Analysis: Optimizing influencer mix to command mass immunity authority

KOL TIER	MJN	BRAND B	BRAND C
Star/Top	Low Reach		High Sound
Mid-Tier	Peak Interaction		
Seeders	High Eff		

Investment Fix

MJN wins on interaction efficiency, but lacks the **"Mass sound"** of Star Anchors.

> Recommendation: Pivot 15% budget to Top-Tier KOLs to scale the professional immunity narrative for the mass market.

Strategy Summary: Use emotive pivot and Top-tier KOL for better immunity storytelling on social media

Emotive Pivot

Shift from ingredient data to "Protection Scenario" storytelling.

Scaling Stars

Incorporate Top-Tier Authority anchors to drive brand sound.

Digital Fission

Activate "Moms-Protect-Moms" referral links on Rednote triggered by protection content.
